
Google Developer Groups On Campus Computer Science and Engineering Department

Summary Report

Event Name: Tech Winter Break

Event Speaker: Yogesh Vashisht
(Mount Meru group consultant)

Seminar Date: December 30,2024

SeminarTime: 5:00PM to 7:00PM

Platform : Bevy(online)

Highlight of Event:

- Mr. Yogesh Vashisth commenced the session with an insightful introduction to web development, explaining its significance in the modern tech industry.
- The speaker provided an overview of fundamental web technologies, including HTML, CSS, and JavaScript, emphasizing their role in front-end development.
- The session covered the basics of React JS, demonstrating its importance in building dynamic and interactive user interfaces.
- Participants learned about the structure of a web page and how different technologies integrate to create responsive and engaging websites.
- The importance of hands-on practice and real-world project development was highlighted to help attendees strengthen their skills.
- Mr. Vashisth emphasized the significance of problem-solving and debugging while working on web applications.
- The session included a live coding demonstration, allowing participants to see the practical implementation of the discussed concepts.
- The event encouraged participants to explore web development further by sharing useful resources and roadmap strategies.
- A dedicated Q&A session provided attendees with the opportunity to clarify doubts and seek guidance on career paths in web development.
- The workshop served as a perfect starting point for aspiring developers, inspiring them to delve deeper into the world of web technologies.
- This event proved to be a valuable experience, equipping participants with fundamental knowledge and motivating them to embark on their web development journey.
