# Details of Training Camp

## Students of GEC Patan who attended the Camp:

- 1.) Jha Manish Nabonath
  - 2.) Atul Singh
  - 3.) Sneha Ganguly
  - 4.) Maurya Muskan Anil
- 

Gujarat Technological University (GTU) organized a thrilling and enriching **Basic Rock Climbing Camp 2024** from **16th to 25th November** at the picturesque **SVIM Campus, Mount Abu**. The camp was designed to introduce students to the fundamentals of rock climbing, mountain trekking, and adventure discipline, encouraging physical fitness and mental strength.

From **Government Engineering College, Patan**, **four students** were selected to participate in this adventurous training program. Their selection marked a proud moment for the institute and gave them an excellent opportunity to engage in a unique learning experience beyond the classroom.

The camp schedule was intense and invigorating, with **early morning physical training sessions** focused on endurance, strength-building, and flexibility. The **evening sessions included trekking drills and basic rock climbing practices**, conducted under the guidance of professional trainers and experts from the field.

Throughout the ten-day camp, students learned key skills such as rope knotting, safety techniques, climbing strategies, teamwork, and self-discipline. The participants also got the chance to explore the natural terrain of Mount Abu, testing their limits and overcoming personal fears.

The GEC Patan students expressed that the camp was a **transformative experience**, helping them build confidence, resilience, and a strong sense of camaraderie. The exposure to adventure sports and expert mentoring made a lasting impact on their personal development.

We extend our sincere thanks to **GTU and SVIM Mount Abu** for organizing this incredible camp and providing students a platform to explore their adventurous spirit while building essential life skills.

## Glimpses of the Event
