MESSAGE FROM THE HEAD OF DEPARTMENT

Prof. Dr. A B Dhruv

Head of Department
Mechanical Engineering

Dear Students, Faculty and Stake Holders,

Warm greetings to All.

It is with great pleasure and pride that I address you today as the Head of the Mechanical Engineering Department. As I stand before you, I am reminded of the incredible journey we have embarked upon, pushing the boundaries of innovation, and contributing to the remarkable advancements in the field of mechanical engineering.

Our department, comprising a team of brilliant minds and dedicated individuals, has consistently strived for excellence in education, research, and development. We believe in nurturing the next generation of engineers who will shape the future with their knowledge, skills, and creativity.

The signature is handwritten in black ink. It features a stylized 'A' at the top left, followed by 'B' and 'Dhruv'. Below the name is a diagonal line with the text '@TORQUE-TALK' written underneath it.

GOVERNMENT ENGINEERING COLLEGE PATAN

ABOUT THE INSTITUTE

What we are...

Government Engineering College, Patan was established in April 2004 with three branches: Computer Engineering, Electronics and Communication Engineering, and Mechanical Engineering each with intake of 60 totaling to 180. The institute was initially functioning in the premises of the K. D. Polytechnic, Patan temporarily. It was shifted to its own newly built-up green premise in August 2008 at Katpur village on Chanasma- Patan road 8 kms before Patan.

Two more branches of Electrical Engineering and Civil Engineering each with intake of 60 were introduced from June- 2009. The intake of Electronics and communication was reduced to 30 and Mechanical Engineering was reduced to 90 from 2020. Currently institute have total intake 330. Each department has well established laboratories, computer centers and well qualified staff.

VISION

To prepare Human Resources with value based competency for technical advancements and growth of society.

MISSION

- To deliver technical programs and services to cater the current needs of society and industry.
- Helping industries in solving challenges by means of providing best technical human resources.
- To contribute in sustainable growth of society.

MECHANICAL ENGINEERING DEPARTMENT

ABOUT THE DEPARTMENT

Our strong academic performance in high school enables you to pursue a range of educational opportunities. One avenue you'll want to explore is mechanical engineering. Studying mechanical engineering at Government Engineering College Patan will equip you with a broad education, preparing you for a variety of career paths graduation and providing a solid foundation for continuing education. Mechanical engineering encompasses many areas. In short, anything that involves the design and or manufacturing of mechanical, thermal or electronic devices and or processes falls entrepreneurs, chief engineers, astronauts, faculty, physicians and patent attorneys, among other occupations. The field includes activities such as designing, developing, manufacturing, managing, researching and controlling engineering systems and their components.

VISION

To create a centre of excellence for imparting education in mechanical engineering field to meet the current and future challenges of technological and sustainable development.”

MISSION

- To build enabling environment for excellent teaching, learning and research in order to produce entrepreneurs and innovators in the field of Mechanical Engineering for sustainable improvement.
- To impart adequate fundamental knowledge, technical and soft skills to students.
- To develop Mechanical Engineering solutions for the problems of industry and society.

MECHANICAL ENGINEERING DEPARTMENT

Programme Educational Objectives (PEOs)

- 1.To prepare graduates with a technical knowledge of mathematical, scientific, engineering, technology, management, humanities and various other interdisciplinary subjects for a successful career.
- 2.Graduates will apply the knowledge of Mechanical Engineering to solve real Engineering problems for sustainable development.
- 3.To inculcate graduates with leadership skills with high level of integrity, Professional personality and ethical values.
- 4.To equip graduates with modern tools, technology and advanced software's for deliberating engineering solutions.

Programme Specific Outcomes (PSOs)

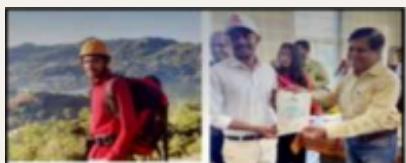

- PSO1: Apply the advanced software skills to model, simulate, analyze and optimize Mechanical systems and Processes.
- PSO2: Acquire technical and managerial skills for innovative activities.

DEPARTMENT

SPOTLIGHT

- RajbharDipakkumarHarekrishna, a seventh-semester B.E. Mechanical student, has been chosen to represent Gujarat Technology University Kabbadi Team Man in the All-Indian Intercollegiate University Tournament from November 24 to December 1, 2022.
- Thakor Pruthviraj Narendrasinh Student of 7th sem mechanical Branch Has Represented GEC Patan and GTU at Swami Vivekanand institute of mountaineering at Mount Abu Rajasthan for Basic Rock Climbing Training

પાઠ્ય એન્જિનીયરીંગ કોલેજનો વિદ્યાર્થી પર્વતારોહણ શિબીરામાં પસંદગી પામ્યો

DEPARTMENT

SPOTLIGHT

On September 11th, 2022, Prof. (Dr.) K.V. Patel organized a one-day workshop at COE Electrical Lab on "Learn interface of PLC with Modbus and sensors through Simulator" for final-year (7th semester) Electrical Engineering students

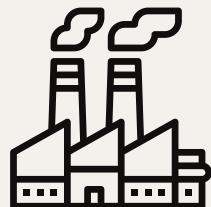

Prof. K. K. Pansal won Best Paper Award (Runner Up)-Poster Presentation for the paper "Experimental Investigation on Double Basin Evacuated Tube Integrated Solar still with Heat Storage material" at the "International conference on Sustainable Energy and Clean Technologies (ICSECT-22)" from 2-4 September 2022, jointly organized by the Department of Chemical and Electrical Engineering, School of Technology, Pandit Deendayal Energy University, Gandhinagar, Gujarat

Department has organized an Impact Lecture Series on "Innovation, IPR & Entrepreneurship" on 12th July, 2022. Mr. Amit Kumar Patel, Managing Director, PATectual IP Law Services LLP has delivered session on "Importance of Patent and Patent Search" and Mr. Tushar Panchal, CEO, Assistant Professor, GTU Innovation & Startup Centre (GISC) has delivered session on "Innovation Market Fit: Cases Study"

DEPARTMENT

INDUSTRIAL VISIT

The Mechanical Department organized an industrial visit for the 7th semester students at Marshal Agro, Unja. A total of 30 students actively participated in the visit. They were accompanied by two faculty members from the department. During the visit, students gained practical exposure to industrial processes. The visit proved to be a valuable learning experience for all participants.

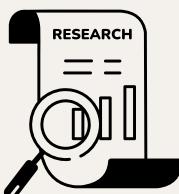

Department organized an industrial visit for the 5th and 7th semester students. The visit was arranged at National Gears and Prabhu Molding Works, Visnagar. A total of 36 students participated in this industrial visit. They were accompanied by 2 faculty members from the department. The visit provided practical knowledge of gear manufacturing and molding processes.

A technical site visit to Banas Dairy, Palanpur was arranged for student's semester of BE 5th and 7th semester on 17th October 2022. The purpose of the visit was to have an insight into the production function of all the major high end projects such as Quality control, Process Control and instrumentation.

DEPARTMENT

RESEARCH AND PUBLICATIONS

Prof. D. K. Patel published as review paper in (September-2022, Volume 214). Artificially roughened solar air heating technology – A comprehensive review. Applied Thermal Engineering, 118817

Prof. H. N. Panchal and Ramachandran Krishnan, S. S. (Volume 20, September–October 2022.). Published a research paper on Biodegradable magnesium metal matrix composites for biomedical implants: synthesis, mechanical performance, and corrosion behavior – a review. Journal of Materials Research and Technology, Pages 650-670.

DEPARTMENT

TRAINING ATTENDED

Sr. No.	Title	Name of the Faculty	Place	Duration
1	Processing and Characterization of Materials (PCM 2022)	Prof. K. K. Pansal	Government Engineering College, Gandhinagar	19/09/2022 to 23/09/2022
2	Welding Technology	Prof. V. K. Patel	iACE, Gandhinagar	10/10/2022 to 14/10/2022
3	Creativity and Innovation	Prof. M. G. Patel	NITTTR, Bhopal	19/12/2022 to 23/12/2022

FACULTY

ACHIEVEMENTS

Prof. K. V. Patel recently received a PhD degree in Mechanical Engineering from Gujarat Technological University. He has done research on Design and Dynamic Balancing of Multiloop Special Mechanism on August 29, 2022

Prof. K. K. Pansal has participated in Processing and Characterization of Materials (PCM 2022) from 19th to 23rd September, 2022 at Government Engineering College, Gandhinagar

STUDENT

PARTICIPATIONS AND ACHIVEMENTS

Meet Chaudhry of Mechanical Engineering Department represented state at 36th National Games in Netball and his team won Bronze Medal for the state from 29th-30th September.

Rajbhar Dipakkumar Harekrishna, a seventh semester B.E. Mechanical student, has been chosen to represent Gujarat Technology University Kabaddi Team Man in the All-Indian Intercollegiate University Tournament from November 24 to December 1, 2022

Thakor Pruthviraj Narendrasinh Student of 7th sem mechanical Branch Has Represented GEC Patan and GTU at Swami Vivekanand institute of mountaineering at Mount Abu Rajasthan for Basic Rock Climbing Training

DEPARTMENT

PLACEMENT

32 students placed through campus placement program in 9 different companies. 63 students placed after completion of the industrial internships during academic year 2022-23 of the Mechanical and Automobile Engineering Department.

DEPARTMENT

LABORATORIES

Refrigeration and Air Conditioning Lab:

This laboratory houses the vapor compression refrigeration system, air conditioning, heat pump setup, refrigerator to determine the most crucial performance parameters of RAC devices. This lab plays a very important role to understand various refrigeration cycles used in domestic as well as Industrial purpose.

CAD/CAM Lab:

This laboratory emphasizes on computer aided design and manufacturing, quality control and measurement too. It also provides various activities in nonconventional manufacturing, flexible manufacturing system and automation. This lab is equipped with CNC turning centre, 5 axis robot and other equipment's required as per syllabus.

Heat Transfer Lab:

This lab course is primarily being offered to the III Year B.E. Mechanical Engineering Students to make them understand the principles of i.e. conduction, convection, Radiation boiling and Condensation modes of heat transfer and principles of Refrigeration and Air Conditioning. Laboratory is equipped with the set up of Pin Fin Apparatus, Heat transfer in Natural convection, Composite Wall Apparatus etc.

LABORATORIES

Workshop and Machine Shop Lab:

Workshop has various facilities like Machine shop, Carpentry shop, Fitting shop, Welding shop, Smithy shop, Plumbing shop, Foundry shop etc. to cater to hands on experience for the students. For manufacturing process, this workshop has a more no. of lathe machine, drilling machine, shaper machine, shearing machine etc.

Internal Combustion Engine Lab:

This laboratory is equipped with modern instruments like modern internal combustion engine test rig, diesel smoke meter, variable compression ratio engine test rig, five gas exhaust gas analyzers etc. In this lab, performance optimization of engine parameters like power, fuel consumption and emissions etc are being taught to the students.

Kinematics and Dynamics of machines Lab:

Students are greatly benefited by studying the demonstration of the Slider Crank Mechanism, Cam Follower Mechanism, Different Gears and Gear train Mechanism, Gyroscope etc.

Computer-Aided Design (CAD) Lab:

This lab is facilitated It is having computer systems with high-end configurations to ensure seamless performance to support students in design, simulation and analysis tools essential for modern engineering applications. The CAD Lab has 30 computers, with 12 PCs equipped with ANSYS for simulation and analysis, while all have Autodesk software for drafting and design.

LABORATORIES

Fluid Mechanics and Fluid Power Engineering Lab:

This laboratory helps students to understand the principles of fluid behavior and hydraulic machinery operations. It offers hands on experience with devices like flow meters, pumps, turbines, and hydraulic systems. Experiments cover fluid properties, flow measurement, and performance testing of machines. The lab enhances practical knowledge of theoretical fluid mechanics concepts learned in classrooms.

Automation in Manufacturing Lab:

The laboratory component of the Automation in Manufacturing course aims to provide hands-on experience with automation technologies used in manufacturing industries. Through practical experiments, students will explore industrial robotics, flexible manufacturing systems (FMS), and automation machinery. The lab exercises are designed to reinforce theoretical concepts and develop problem-solving skills for real-world automation challenges.

Basic Mechanical Engineering Lab:

The Basic Mechanical Engineering Laboratory provides practical exposure to fundamental mechanical systems and components. It includes models of boilers along with their mountings and accessories, helping students understand steam generation and safety mechanisms. The laboratory also features internal combustion (IC) engine models, including four-stroke and two-stroke petrol and diesel engines, enabling students to study engine components, working principles, and thermodynamic cycles.

Engineering Graphics & Design Lab:

Engineering Graphics & Design (EGD) is a vital subject that enables students to communicate engineering ideas, designs, and concepts in a clear and precise manner. The laboratory has several shapes of 2D & 3D models, which will be helpful in the visualization and understanding of the subject.
