**Date:** 7th March 2024

**Time:** 3:00 PM to 5:00 PM

**Total Participants:** 57 Students

---

To commemorate **International Women's Day**, the **Women Development Cell** of **Government Engineering College, Patan** organized a vibrant and engaging **Workshop** on **7th March 2024**. The event was designed to celebrate the spirit of womanhood, promote gender equality, and empower the young women of the institution through a series of thoughtful programs and activities.

The workshop witnessed enthusiastic participation, particularly from girl students who led and conducted various programs aimed at showcasing talent, promoting self-confidence, and discussing the vital role of women in society. Activities included motivational speeches, poetry recitations, cultural performances, and short talks focusing on women's achievements, rights, and the importance of self-development and leadership. Students also highlighted the history and significance of International Women's Day, reflecting on the journey toward gender equity.

The two-hour event served as a platform for students to express their thoughts, creativity, and aspirations, fostering a sense of pride, unity, and empowerment. The environment was filled with positivity and inspiration, as students discussed real-world issues faced by women and the steps needed to overcome them. The interactive sessions encouraged peer learning, confidence-building, and awareness of the importance of continuous personal and professional growth.

With the active involvement of **57 students**, the workshop successfully fulfilled its objective of celebrating women's achievements and inspiring the next generation to strive for greater equality and success. It strengthened the commitment of GEC Patan's Women Development Cell towards creating a more inclusive, supportive, and empowering environment for all students.

## Glimpses of the Event
