Summary Report

Event Name: AI/ML Workshop
Event Speaker: Sumit Chawla
(CEO of Ultron Technologies)
Seminar Date: 9th November
Seminar Time: 5:00 PM
Venue: Google Meet

Highlight of Event:

- The event was conducted in collaboration with ITM SLS Baroda University, Karnavati University, Marwadi University, and Birla Vishwakarma University.
- Mr. Sumit Chawla introduced Artificial Intelligence (AI) and Machine Learning (ML), explaining their role in shaping the future of technology.
- He discussed the real-world applications of AI/ML in various industries, including healthcare, finance, and automation.
- The workshop provided a step-by-step guide on building a machine learning model, covering data preprocessing, model training, and evaluation.
- Mr. Chawla emphasized the importance of hands-on experience, projects, and practical implementation to gain expertise in AI/ML.
- He introduced essential AI/ML tools and frameworks such as TensorFlow, PyTorch, and Scikit-learn for model development.
- The session highlighted career opportunities in AI/ML, offering guidance on skills, certifications, and job prospects.
- He encouraged participants to contribute to open-source AI projects, collaborate on research, and build a strong portfolio.
- The workshop concluded with an interactive Q&A session, where participants clarified doubts and received expert insights.
- The session provided valuable knowledge and inspiration, helping attendees take their first step toward AI/ML careers.
