Google Developer Groups On Campus
Computer Science and Engineering Department

Summary Report

Event Name: GDG Orientation
Session
Event Speaker: Jaydeep kuber
(GDSC former lead)
Seminar Date: September 11,2024
Seminar Time: 3:00PM to 5:00PM
Venue : CSE Seminar Hall, GEC Patan

Highlight of Event:
o The session aimed to introduce Google Developer Groups (GDG), new team and highlighting its mission, objectives, and benefits for students.
o The event began with an introduction by our **club mentor, Khushali Raval**, who welcomed the attendees and shared insights on the importance of developer communities, networking, and continuous learning
o Following this, the core team introduced GDG's global presence, and how students at GEC Patan can benefit from workshops, hackathons, study jams, and networking opportunities organized by the club
o The session highlighted GDG's community-building efforts, encouraging students to engage in hackathons, workshops, and collaborative projects.
o Students were introduced to networking opportunities within GDG, helping them connect with industry professionals, mentors, and like-minded peers.
o The importance of hands-on learning through real-world projects, coding competitions, and open-source contributions was discussed.
o Participants learned about Google's developer tools and resources, such as Google Cloud, TensorFlow, and Firebase, which can aid in their learning journey
o The event concluded with an engaging Q&A session, where students sought clarification on GDG activities, career paths, and technical skills.
o The session served as a stepping stone for first-year students, inspiring them to explore technology, collaborate with peers, and grow within the GDG community.
