

GOVERNMENT ENGINEERING COLLEGE PATAN

NEWSLETTER SERIES

INSTITUTE GLIMPSE

Government Engineering College, Patan (G.E.C. Patan), situated in the tranquil and scenic village of Katpur in Patan District, Gujarat, was established in 2004 with a commitment to delivering quality education in engineering and technology. Over the years, the institute has achieved remarkable growth and excellence in academics, innovation, and research. It is affiliated with the Gujarat Technological University (GTU) and functions under the administration of the Directorate of Technical Education (DTE), Government of Gujarat.

INSTITUTE VISION

“To prepare human resources with value-based competency for technical advancements and growth of society.”

INSTITUTE MISSION

- To Deliver technical programs and services to cater the current needs of society and industry.
- Helping industries in solving challenges by means of providing best technical human resources.
- To contribute in sustainable growth of society.

FROM PRINCIPAL'S DESK

DR. BHARAT J. SHAH
PRINCIPAL

It gives me immense pleasure to present the **April-July 2026** issue of our college newsletter, which reflects the vibrant academic, technical, research, and community-oriented activities carried out at **Government Engineering College, Patan**. During this quarter, our departments actively organized industrial visits, workshops, project ideas and poster presentations, Faculty development programs,

research publications, Open House and student achievement initiatives, all aimed at strengthening experiential learning and industry relevance. Our college very proudly celebrated Annual Day - "PRAGATI 2026" that reflected our valuable efforts and growth in our college's legacy. Committees and cells such as NSS, Students, Alumni and Gymkhana played a significant role in nurturing social responsibility and holistic well-being through diverse outreach programs. I sincerely appreciate the dedicated efforts of our faculty, staff, and students in making these initiatives successful. **Let us continue to uphold the spirit of excellence, innovation, and service, and work together towards making GEC Patan a center of technical excellence and holistic development.**

~

Dr. Bharat J. Shah

Principal

Government Engineering College, Patan

ELECTRONICS AND COMMUNICATION ENGINEERING

VLSI Expert Lecture

The Electronics and Communication Engineering Department, Government Engineering College, Patan, under the banner of the VLSI Club, organized a VLSI Expert Lecture Session on 02 May 2026 in the Seminar Hall of the EC Department.

The session was designed to build a strong conceptual foundation in Very Large-Scale Integration (VLSI) by introducing students to the basics of VLSI design and semiconductor technology. The lecture highlighted the importance of VLSI in modern electronic systems and its growing role in the semiconductor industry.

The session covered the following topics:

- Introduction to VLSI basics
- Fundamentals of semiconductor technology
- Career opportunities and scope in the VLSI industry
- Interactive Question & Answer session Students actively participated throughout the lecture and interacted with the resource person during the Q&A session, making the event informative and engaging.

The session successfully achieved the following outcomes:

- Students developed a fundamental understanding of VLSI technology.
- Participants gained knowledge of semiconductor basics and chip design concepts.
- Students became aware of career opportunities available in the VLSI and semiconductor industries.
- The interactive discussion enhanced students' confidence and clarified their queries regarding higher studies and industrial careers.

ELECTRONICS AND COMMUNICATION ENGINEERING

Open House – Project Presentation (Subject: Linear Integrated Circuits)

Date: 7th May 2026

Time: 11:00 A.M. to 3:00 P.M.

Venue: L-212 Project Laboratory, E&C Department, GEC, Patan

Participants: 38 students (3rd Year EC)

The Electronics & Communication Engineering Department, Government Engineering College, Patan, organized an Open House – Project Presentation for the subject Linear Integrated Circuits (LIC) on 07 May 2026 in the L-212 Project Laboratory. The event provided students with an opportunity to demonstrate the practical implementation of concepts learned during the course through innovative electronic projects.

A total of 19 student teams, comprising 38 students, participated in the event. Students presented working models based on operational amplifiers, IC 555 timers, filters, waveform generators, voltage regulators, instrumentation amplifiers, phase-locked loops, and other Linear Integrated Circuit applications. Faculty members evaluated the projects based on technical understanding, circuit implementation, innovation, documentation, and presentation skills.

The event encouraged interactive learning, allowing participants to explain the design, operation, and applications of their projects. Live demonstrations, technical discussions, and question-and-answer sessions enabled students to strengthen their practical knowledge while improving communication and presentation skills. The Open House successfully bridged the gap between theoretical learning and real-world engineering applications.

The event provided an excellent platform for students to showcase their technical knowledge and practical competencies through innovative projects.

ELECTRONICS AND COMMUNICATION ENGINEERING

Industry Expert Session by United Instruments.

Date: 8th May 2026

Time: 11:00 A.M. to 12:30 P.M.

Venue: Seminar Hall, Amenity Building, GEC Patan

Participants: Students and Faculties of EC Department

The session was conducted by Mr. Paras Kalariya, who guided students of Electronics & Communication Engineering Department, Government Engineering College, Patan, organized an Industry Expert Session on 08 May 2026 in the Seminar Room for the students of the Electronics & Communication Engineering Department.

The session was delivered by experts from United Instruments, a leading organization working in the fields of industrial equipment, instrumentation, IoT, embedded systems, automation solutions, and engineering services. The experts shared valuable knowledge on emerging industrial technologies, current trends, practical engineering applications, and industrial expectations from engineering graduates.

During the session, the experts discussed the importance of industrial automation, instrumentation systems, embedded technologies, Internet of Things (IoT), and their applications in modern industries. They also explained how students can prepare themselves for careers in the automation and embedded sectors by developing strong technical fundamentals, problem-solving skills, and practical knowledge through internships, industrial training, and project-based learning.

The department introduced its initiative to establish Industry–Institute Collaboration with United Instruments. The proposed collaboration aims to provide students with opportunities for industrial training, internships, expert lectures, workshops, student projects, faculty development programs, placement assistance, career guidance.

ELECTRONICS AND COMMUNICATION ENGINEERING

VLSI Industry Expert Session

Date: 9th May 2026

Time: 11:00 A.M. to 12:00 P.M.

Venue: Google Meet

Participants: Students and Faculties of EC Department

The Electronics and Communication Engineering Department, Government Engineering College, Patan, under the banner of the VLSI Club, organized an online VLSI Industry Expert Session on 09 May 2026 through Google Meet.

The expert session was delivered by Mr. Aman, Module Leader, Eximietas Design Pvt. Ltd., who shared valuable insights into the rapidly growing semiconductor industry and current developments in Very Large-Scale Integration (VLSI) technology.

During the session, the speaker discussed the latest trends in VLSI, emerging opportunities in semiconductor chip design, industry expectations from engineering graduates, and the future scope of semiconductor technology. He also highlighted the practical challenges faced by the industry and emphasized the importance of strengthening fundamentals, continuous learning, and acquiring industry-relevant technical skills.

The major topics covered during the expert session included:

- Emerging Trends in VLSI
- Career Opportunities in the Semiconductor Industry
- Industry Challenges and Expectations
- Future of Semiconductor Technology

The session concluded with an interactive discussion in which students actively participated by asking questions related to career planning, higher education, required technical skills, internships, and placement opportunities in the VLSI domain.

ELECTRONICS AND COMMUNICATION ENGINEERING

1st Year Orientation Program 2026

The Department of Electronics and Communication Engineering, Government Engineering College, Patan, organized the First Year Orientation Program on 01 July 2026 under the guidance of Dr. M. B. Patel. The program introduced newly admitted students and their parents to the institute, curriculum, GTU regulations, facilities, and student support services. Faculty members guided participants on academic expectations and available resources while addressing their queries. Overall, the session helped students begin their engineering journey with confidence and strengthened the connection between the department, students, and parents.

MECHANICAL ENGINEERING

PAPERS Presented/Published

- Prof. B B Patel and Prof. D K Patel
- published a research article on “Role of stirring direction in the microstructural and tribological behaviour of graphene-reinforced Al 6061-T6 surface composite using FSP” in Welding International, a Taylor & Francis Q2 journal. (Accepted: 14/04/2026, DOI: <https://doi.org/10.1080/09507116.2026.2662007>).

- Mechanical Engineering department had signed an MOU with Kriya Engineers Pvt. LTD, Ahmedabad as a part of industrial interaction (to promote greater interaction with industry, student's placements, training, Expert talks, technical workshops, HR meet etc.)

Industrial Visit

- Mechanical Engineering department has arranged a technical visit for the 6th semester students at 2 Days Technical Visit at Sardar Dam Site and Statue of Unity at Ekta Nagar during 15.04.2026 to 16.04.2026 to give practical exposure. Visit was coordinated by Prof. K. H Thakkar. Total 18 students from Mechanical department attended a visit.

- Mechanical Engineering department has arranged a technical visit for the 4th semester students at on 01/05/2026 at Gujarat Apollo Industries Ltd, to give practical exposure. Visit was coordinated by Prof. V K Patel and Dr. H R Prajapati. Total 25 students from Mechanical department attended a visit.

FACULTY ACTIVITIES

- Prof. R A Oza, Prof. B.B Patel, Prof. K H Thakkar, Prof. N R Makvana and Prof. V K Patel had participated and successfully completed a 12-week MOOC FDP course on international business from NPTEL (January to April 2026 session).

- Dr. H R Prajapati, Prof. R A Oza, Prof. B.B Patel, Prof. K H Thakkar, Prof. N R Makvana and Prof. V K Patel had successfully completed 02 weeks (from 15/05/2026 to 30/05/2026) industrial training at Australian Premium Solar (India) Ltd, Prantij

- Dr. Hitesh Panchal participated in the 17th International Conference on Interdisciplinary Research for Sustainable Development (IRSD 2026) held at MERI College, New Delhi, on 18 April 2026. He presented multiple research papers on solar energy and IoT-based technologies as a co-author. His contributions were recognized with Certificates of Honour and Appreciation for excellence in sustainable engineering research.

- Dr. H N Panchal has taken an expert lecture in 3rd Summer Science Camp 2026, Patan on 14th May 2026 at Regional centre patan.
- Industrial design of Dr. Hitesh Panchal entitled "Advanced integrated solar still unit" no. 462234-001 was graded on 14/06/2026.

- Dr. Hitesh Panchal successfully completed the 12-week NPTEL Online Certification course, "Energy and the Climate Crisis: The Path to Net-Zero Emissions," during the January–April 2026 session. He earned the Elite Certification with an 84% overall score, demonstrating excellence in climate change, renewable energy, and sustainability. This achievement further strengthened his expertise in clean energy technologies and sustainable engineering research.

FACULTY ACTIVITIES

MECHANICAL ENGINEERING

- Dr. Hitesh Panchal served as a Session Chair at the First Conference of the LGPR Programme (February 2026 Batch) organized by Lincoln University College, Malaysia, on 11–12 April 2026. He chaired technical sessions, evaluated research presentations, and facilitated scholarly discussions. His contribution was recognized with a Session Chair Certificate presented by the President of Lincoln University College.

- Dr. A B Dhruv had participated in 01week STTP on “Research Methodology, Ethics & AI Tools” conducted by NITTTR, Bhopal during 25/05/2026 to 29/05/2026.
- Dr. A B Dhruv serve as a member of conference committee and also deliver a presentation on IKS integration in Mechanical Engineering at GTU under NEP-2020.

- Dr. A B Dhruv serve as a co-author in book titled “Environmental Science, Sustainability and Renewable Energy”.
- The inauguration of the Robotics Club was successfully organized on 15th April 2026 at the Seminar Hall, Electronics & Communication Engineering Department, Government Engineering College (GEC), Patan. A total of 43 students and 10 faculty members attended the program, reflecting strong interest in robotics and emerging technologies within the institution. The highlight of the program was the inaugural address delivered by Dr. Hitesh Panchal, Coordinator of the Robotics Club.

CIVIL ENGINEERING

IIRS ISRO NODAL

As a IIRS ISRO NODAL Centre of GEC, Patan Civil Engineering Department arranged Certificate distribution for course on “Geodata Processing using Python and Machine Learning”. 84 participants were successfully got certificates.

One Day Workshop

The Applied Mechanics organized a one-day workshop on "Recent Trends in Geotechnical Engineering" on 07th April 2026 (10:30 AM to 05:15 PM), to the Civil Engineering students, held at the Civil Seminar Hall. The workshop, attended by 45 students and 6 faculty members, was led by Dr. Uma Chaduvula, Assistant Professor, PDPU, Gandhinagar, Gujarat, India. The sessions include basics of Geology and Soil Mechanics, Innovation & case Studies in Geotechnical engineering and Lab Experiments and hands on session.

DEPARTMENTAL ACTIVITIES

CIVIL ENGINEERING

Industrial Visit

Applied Mechanics Department has organized an Industrial Visit at “Saradar Sarovar Dam” during 15th & 16th April, 2026 for 6th semester Civil Engineering Students of GEC-Patan. Event was organized and coordinated by Prof. H. R. Trivedi, Applied Mechanics Department.

ISRO Participation

Government Engineering College, Katpur, Patan, Gujarat, has participated in online training programme conducted by Indian Institute of Remote Sensing, ISRO Dehradun on “Geospatial Information, Mapping Standards, and Spatial Analytics framework for Master Plan formulation.” This Online Course Was Conducted During 06 April 2026 to 17 April 2026.

CIVIL ENGINEERING

FACULTY ACTIVITIES

- Prof. V.D. Patel successfully completed the 12-week MOOC SWAYAM-NPTEL course on "Online Communication in the Digital Age".

- Prof. H. R. Trivedi, Applied Mechanics Department has successfully completed the 2-week Industrial Training at KPIL i.e. Kalpataru Projects International Limited, Gandhinagar from 6th June 2026 to 20th June 2026.

- Prof. H. R. Trivedi, Applied Mechanics Department attended the Academic Conclave Lakshya 2.0, the annual technical fest of LDCE, is being organized as a platform where legacy meets innovation, and is going to witness a footfall of 10,000+ participants with 35+ events across domains such as Civil, Mechanical, Automobile, IT, AI, ML, and more. Prof. H. R. Trivedi, was invite to be a part of Lakshya 2.0 as a “judge for the event CIVIL CHAOS”, on 19th April 2026 at L.D. College of Engineering, Ahmedabad.

- Prof. H. R. Trivedi, Head of Applied Mechanics Department attended the Academic Conclave on “Industry-integrated Robotics Education and way forward”, a platform for bringing together leading institutions in Gujarat, and igniting conversations on robotics engineering education, industry-integrated robotics learning, innovative practical hands-on and lab exchange program on 13th April 2026 at NAM:TECH, IIT-Gandhinagar.

HUMANITIES & SCIENCE DEPARTMENT

Technical Open House 2026

The Technical Open House 2026 at Government Engineering College, Patan provided a platform for students to showcase their innovative projects and technical skills. The event encouraged creativity, practical learning, and the application of engineering knowledge to solve real-world problems.

Students presented projects in domains such as Artificial Intelligence, Machine Learning, IoT, Robotics, Embedded Systems, and Software Development. Faculty members, industry experts, alumni, and visitors interacted with the participants, appreciating their work and offering valuable feedback. The event also promoted teamwork, communication, and interdisciplinary learning.

The Open House concluded with the recognition of outstanding projects for their innovation and technical excellence. Overall, the event was a great success, inspiring students to pursue research, innovation, and entrepreneurship while strengthening the institute's culture of experiential learning.

COMMITTEE ACTIVITIES

GYMKHANA COMMITTEE

PRAGATI 2026

Government Engineering College Patan celebrated its Grand Annual Function, PRAGATI-2026, with immense enthusiasm on 10th April 2026. The prestigious event commenced with an inspiring address by the Honorable Principal, Dr. B. J. Shah Sir. He proudly highlighted the institute's collective team efforts, outstanding academic contributions, and remarkable overall institutional achievements.

Following the address, a grand felicitation ceremony was organized to honor exceptional students. Medals and certificates were awarded to academic toppers who demonstrated excellence. Furthermore, brilliant achievers in sports and cultural activities were proudly recognized, motivating the entire student body to strive for similar greatness in their future academic endeavors.

The evening transitioned into a vibrant showcase of talent through various cultural program presentations. Students captivated the audience with energetic group dances, deeply moving drama performances, and melodious singing acts. These spectacular artistic displays perfectly concluded the monumental celebration, leaving everyone with joyful memories of this truly unforgettable annual festival.

COMMITTEE ACTIVITIES

GYMKHANA COMMITTEE

SPECTRUM 2026

SPECTRUM 2026, GEC Patan's vibrant youth celebration, saw over 400 students participating daily from April 5th to 9th. This energetic five-day festival perfectly set the stage for the grand Annual Day.

On Signature Day, students gathered to leave lasting memories by writing heartfelt messages, inspiring quotes, and colorful signatures on each other's shirts, cherishing and immortalizing their lifelong college friendships.

SIGNATURE DAY

CHARACTER DAY

Character Day brought incredible creativity to the campus. Students enthusiastically dressed up as their favorite movie, book, and anime characters, transforming the college into a lively and colorful cinematic universe.

Celebrating unity and teamwork, Group Day featured friends wearing matching outfits and coordinated themes. It beautifully highlighted the strong bonds, shared spirit, and vibrant community culture among the students.

GROUP DAY

TRADITIONAL DAY

Traditional Day showcased cultural pride, with students wearing elegant regional attire. The campus vibrated with festive energy, celebrating India's rich heritage through beautiful ethnic clothing and joyous group photography.

NPTEL/SWAYAM

- Government Engineering College, Patan achieved an excellent performance in the NPTEL/SWAYAM Jan–April 2026 session, reflecting students' active participation in online learning. A total of 111 students registered for various NPTEL/SWAYAM courses, out of which 95 students (85.59%) successfully earned certificates.

Certificate Distribution

Sr. No	Certificate Category	No. of Students
1	Elite + Gold	9
2	Elite + Silver	33
3	Elite	38
4	Successfully Completed	15
5	No Certificate	16
6	Total Registered	111

Top Performers

- Kanjariya Shyam Hiteshbhai (CE) – 97 Marks
- Singh Niraj Tejnarayan (CE) – 97 Marks
- Panchal Krishna Alpeshkumar (Civil) – 94 Marks
- Patel Yashraj Dinkar (CE) – 93 Marks

NPTEL Believer Awardees

- Buntariya Chaitany (CE)
- Thakor Falguni Manojkumar (CE)

→ The institute congratulates all successful students and faculty coordinators for their efforts in promoting quality online education and lifelong learning through NPTEL/SWAYAM.

ALUMNI COMMITTEE

FARWELL & ALUMNI INTERACTION 2026

The Alumni Committee, Government Engineering College, Patan organized Farewell 2026 & Alumni Interaction on 5th May 2026 with the participation of students, faculty members, and alumni. The event aimed to strengthen alumni relations, encourage knowledge sharing, and motivate the graduating batch.

The programme featured a Poster Presentation, where final-year students showcased their internship and project work, followed by an interactive session with junior students. An Alumni Interaction Session was conducted by Mr. Manan Thakkar and Mr. Hardik Bhavsar (Batch 2014), who shared their career experiences and guided students on higher education, placements, entrepreneurship, professional ethics, and lifelong learning.

The event provided valuable career insights, strengthened the bond between alumni and students, and inspired participants to remain connected with the institution. It concluded successfully with a group photograph and a vote of thanks, reflecting the department's commitment to mentorship and holistic student development.

Poshan Pakhwada

Poshan Pakhwada was organized to promote awareness about nutrition, healthy eating habits, and overall well-being under the Poshan Abhiyaan. NSS volunteers visited nearby villages, Katpur and Rajpur, where they conducted door-to-door surveys to assess the nutritional status and health practices of families. They collected information on the use of medical facilities, children's nutrition, and dietary habits. Volunteers also educated villagers about balanced diets, malnutrition, hygiene, and healthy eating practices. The campaign helped increase community awareness and encouraged healthier lifestyles.

Awareness of Nasha Mukti

Nasha Mukti Abhiyan was organized to spread awareness about the harmful effects of drug addiction and promote a healthy, addiction-free lifestyle. NSS volunteers conducted rallies, slogan chanting, poster presentations, and awareness sessions in Rajpur village. They interacted with villagers and youth to educate them about the physical, mental, and social impacts of substance abuse and encouraged them to adopt healthy habits and stay away from drugs. The campaign successfully promoted awareness and community participation towards building a drug-free society.

COMMITTEE ACTIVITIES

NATIONAL SERVICE SCHEME

NSS Orientation Program

The NSS Orientation Program 2026 was organized to introduce new students to the values and objectives of the National Service Scheme. The program began with a Lamp Lighting ceremony, followed by an introduction to NSS and the NSS Song. Motivational speeches by the Principal and faculty members inspired students to participate in community service. A video and PPT showcased the activities and achievements of NSS GEC Patan, while senior volunteers shared their experiences and the impact of NSS on their personal growth. The program concluded with a Vote of Thanks, encouraging students to actively contribute to society through NSS.

World No Tobacco Day

The World No Tobacco Day awareness program was organized online on 31st May 2026 through Google Meet to educate students about the harmful effects of tobacco and promote a healthy, addiction-free lifestyle. The session included an informative presentation on tobacco consumption in Gujarat, its health risks, and the importance of prevention. Participants also took the No Tobacco Pledge and were motivated by an inspiring address from a faculty member to adopt healthy habits and spread awareness. The program concluded with a Vote of Thanks, successfully encouraging students to contribute towards a tobacco-free society.

World Environment Day

On the occasion of World Environment Day 2026, the NSS Unit of Government Engineering College, Patan organized various activities to promote environmental awareness and sustainable living under the theme "Our Earth, Our Responsibility, Our Future." NSS volunteers participated in a tree plantation drive to encourage afforestation and environmental conservation. An Environment Awareness Quiz Competition was also conducted to enhance students' knowledge about climate change, biodiversity, waste management, and sustainable development. The program successfully inspired students and the community to adopt eco-friendly practices and contribute towards a greener future.

COMMITTEE ACTIVITIES

NATIONAL SERVICE SCHEME

Tree Plantation

Under the "Ek Ped Maa Ke Naam" initiative, NSS volunteers organized a tree plantation drive with the students of Rajpur Primary School to promote environmental awareness. Students actively participated in planting saplings and learned about the importance of trees in maintaining ecological balance. They were also taken on a visit to the NSS Garden, where volunteers introduced them to different plant species, gardening practices, and the importance of green spaces. The activity encouraged young students to develop a sense of responsibility towards nature and environmental conservation.

International Yoga Day

International Yoga Day 2026 was celebrated on 21st June at Government Engineering College, Patan to promote the importance of yoga for physical health, mental well-being, and a balanced lifestyle. The program began with the Honorable Prime Minister's virtual address, highlighting the significance of yoga in daily life. Around 80 students and faculty members actively participated in the event, followed by a practical yoga session that included yoga asanas, pranayama, and meditation. The celebration successfully encouraged participants to adopt yoga as a part of a healthy and disciplined lifestyle.
